

AUSTRALIA'S SMARTER MOTORS

1. Five kinds of transmitter (for your choice)

Single Channel Transmitter

Double Channel Transmitter

SIX Channel Transmitter

Portable transmitter

16 channel transmitter with LCD

2. Brief programming instruction

- (1) Press the choice button on the transmitter to choose the channel to be set. (If you are using the single channel or the wall mount transmitter, no need to choose channel)
- (2) Before connect the Power, press and hold the transmitter UP button for 3s, then power on the motor, then 5 beeps will sound meaning the receiver is ready to set up program, it'll return to the original status if not pressing the transmitter "UP" button within these 5 seconds.
- (3) Release and press the transmitter "UP" again till hear the first 3 beeps, confirming memorization.
